

The issue of debt in vulnerable countries is closely linked to the Jubilee, which highlights its urgency and ethical necessity in order to allow a return to the path of sustainable development. The contributions in this volume take stock of the state of the problem, recently become enormously complicated with the outbreak of geopolitical conflicts and the crisis of multilateralism. But precisely for this reason, the solution can and must be found in the direction of a new financial architecture and the moral re-foundation of global governance. These ambitious goals go to the heart of the mission of the Centesimus Annus Pro Pontifice Foundation and the new challenges facing the Social Doctrine of the Church inspired by the Magisterium of Pope Francis and the new Pontificate of Leo XIV. The time for dialogue and a solution to the debt crisis is now!
